

Penboard

The only greyboard for the classroom

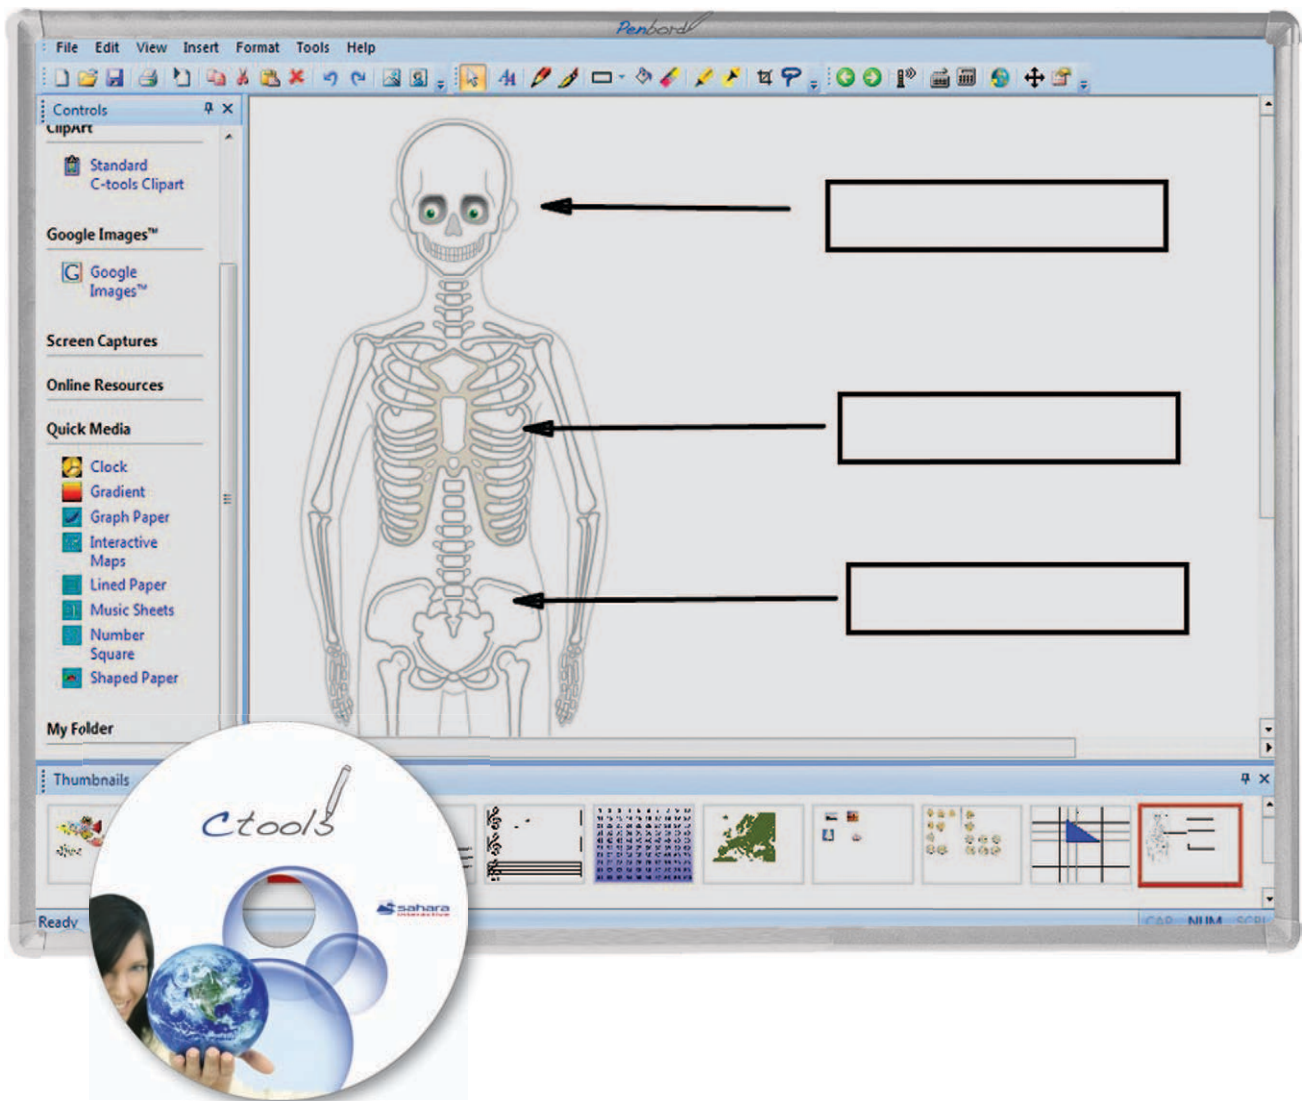

INTERACTIVE GREYBOARD

The unique grey colour of the Penbord is friendly for the eyes, so working with the board is pleasant all day. Because of the electromagnetic technique and high resolution the Penbord is the fastest and most accurate board in his range.

The special layer on the board allows writing on the board with normal whiteboard markers and is easy to clean. The scratch proof surface makes the board easy to use and less vulnerable.

C-TOOLS

The free C-tools education software is included with the Communicator. This software has more than 10.000 pictures, recourses and backgrounds. It allows making annotations over every software that is running on the computer and can be printed, saved or emailed.

C-ADDS AND C-QUEST

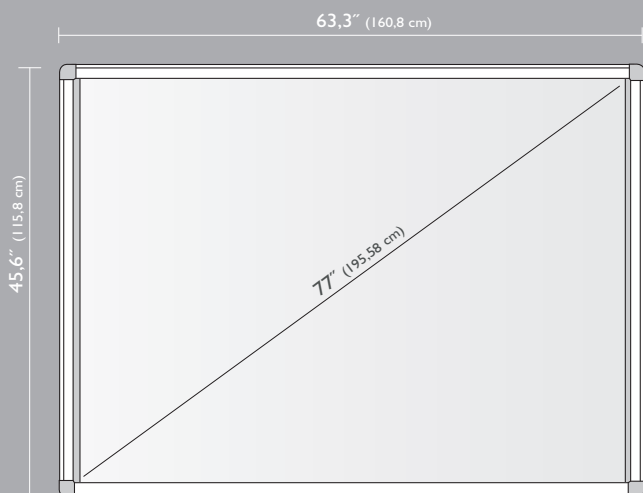

Upgrade your lessons with the extra software C-adds and C-quest and make lessons into questions, quizzes and voting software.

Accurate and fast.

The scratch proof surface makes the board easy to use and less vulnerable. It is very easy to clean even when you use normal whiteboard markers.

Features Penbord

Active Area (HxW)	160,8 x 115,8 cm
